

# All Chained up!

2016 55' x 1 episodes  
Genre : Game Show

## Ultimate friendship game

The game is simple.

Two teams of 4 friends compete for 1 million yen. Their mission is to reach the goal before the another team. The destination is 100 miles away and teams start with no money. Teams can hitchhike but are not allowed to use the highway. Most importantly, teams are **ALL CHAINED UP!**

Whatever they do, where ever they go, the teams are always chained up. Even in the toilets! Only the team which completes the challenges and reaches the goal first wins the prize . Can the teams reach the goal before they break their friendship?

## RED ONI's mission makes the game mudslinging

### Friendship Trial

Teams must draw a lot from a box and have to accomplish the mission written on it. "Take a bath at someone's house" "Change cloth with people in town" "Walk a dog for 30minutes" Missions are hard to complete with a chain and might break the teams friendship!

### Judgement Time

Members must choose a card "STAY" or teammates "name card". If more than two cards of one person are drawn, the person will be eliminated and drops out of the game. The fewer the member is, the faster the team reaches the goal. Distribution of the prize will be more. But be careful. The friendship will be broken.

**Friendship or Money?**  
**The Betrayal game begins!**
